Dear Bianca Janette:

Thank you for the opportunity to apply for the Senior Software Engineer role at your company. Since with a Bachelor's degree in Information Technology, Master's degree in Computer Science, and 6+ years hands-on experience using latest technologies to develop software and web applications, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a confident and motivated team player who enjoys being challenged to perform tasks independently. Through my work experience and other professional activities, I have enhanced my analytical, critical thinking and multitasking skills. Throughout my extensive history, I have not only developed software programs and mobile applications, but also trained 30+ software engineering interns to reach permanent junior software engineer positions.

I am very pleased to tell you that your requirements closely match my background and my skills. There are a few I would like to highlight that would allow me to contribute to your bottom line. They are:

- Thorough understanding of AngularJS and Node.js.
- Experience using relevant tool suites.
- Excellent coding skills.
- Experience working with clients and business partners.
- Extensive knowledge of agile methodologies.
- Excellent team player with a high level of initiative.
- Outstanding knowledge in web services.
- Ability to multitask in a demanding environment.

Please review my attached resume for a more in-depth illustration of my work history and achievements. I look forward to working out how my specific skills and abilities will benefit your organization. Please contact me at any time via my cell phone xxx-xxx-xxxx or via email at name@example.com to arrange for a convenient meeting time.

Thank you for your time and consideration. I look forward to hearing from you soon about this opportunity.

Sincerely,

[Your Signature or typed name]
